

CAMPAGNOLA

The world leader in innovative pruning solutions for the orchard and vineyard

STAR 40
SHEAR

FEATURES:

- More cutting power
- Lightweight
- High performance carbon polymer allows for heat exchange and prevents formation of ice
- Quick and easy maintenance
- High strength forged steel blades

NEW FOR ORCHARD PRUNING

The **Star 40 shear** is the latest in innovative technology—15% stronger and 3.5 ounces lighter than previous shears. With the use of carbon techno-polymers, Campagnola has obtained the best weight-to-power ratio you can find on a pneumatic shear. The result is an excellent cutting capacity at an extremely reduced weight.

Models:

STAR 40-02T	w/telescopic extension, 100-150cm (3'4" - 4'11")
STAR 40-04T	w/telescopic extension, 150-250cm (4'11" - 8'3")
STAR 40-06T	w/telescopic extension, 200-330cm (6'7" - 10'10")
STAR 40-02	w/fixed extension, .5m (1'8")
STAR 40-04	w/fixed extension, 1m (3'4")
STAR 40-05	w/fixed extension, 1.5m (4'11")
STAR 40-06	w/fixed extension, 2m (6'7")
STAR 40-09	w/fixed extension, 2.5m (8'3")

Specifications:

Air requirements - 140 psi, 2.34 cfm
Cutting Capacity - 1.57"
Weight - 2.76-4.95 lbs. with extension
