

CAMPAGNOLA

The world leader in innovative pruning solutions for the orchard and vineyard

Victory with adapter
for extension pole

Victory Hand-Held

FEATURES:

- More cutting power
- Lightweight
- Non-Slip molded body
- High performance carbon polymer allows for heat exchange and prevents formation of ice
- Quick and easy maintenance
- High strength forged steel blades

NEW FOR ORCHARD & VINEYARD PRUNING

The **Victory shear** is the latest in innovative technology—15% stronger and 3.5 ounces lighter than previous shears. With the use of carbon techno-polymers, Campagnola has obtained the best weight-to-power ratio you can find on a pneumatic shear. The result is an excellent cutting capacity at an extremely reduced weight. The shear is available hand-held or with an extension pole.

Models:

VICTORY	Hand-held, no extension
VICTORY-02T	w/telescopic extension, 100-150cm (3'4" - 4'11")
